

AUGER-MATE®

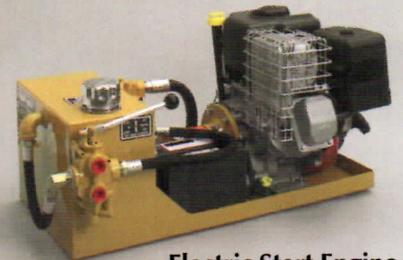

HYDRAULIC POWER FOR SEED OR FERTILIZER WAGON AUGERS
THE ORIGINAL . . . OVER 30 YEARS IN THE FIELD

483 BI

Briggs & Stratton Engine

483 BESI
(Battery sold separately)

Electric Start Engine

483 BH

Honda Engine

493 BR

Robin Engine

FEATURES AND BENEFITS

PERFORMANCE

- 8 Hp. engine for plenty of power in a compact package
- Oversized 5 gallon fluid reservoir
- Designed to match auger for best efficiency
- Powers auger at ideal speed to minimize seed damage

CONVENIENCE

- Eliminates the need for an extra tractor
- Reversing valve for easy auger cleanout
- Quick, simple installation
- From elevator to field without hooking or unhooking

QUALITY

- Full 1-year warranty on engine
- Direct mount pump – no belts to misalign
- Extra heavy steel construction: 3/16" and 12 gauge
- Built with pride – Made in America
- 4 air & oil filters for long life

SAFETY

- Adjustable pressure relief valve to protect system
- Three position detented control valve (forward, neutral, reverse) for quick reversing or stopping

VERSATILITY

- Can be mounted on wagon, planter, pickup or wheel kit
- Valve options available for powering cylinders or logsplitters
- Units available for construction, municipal and utility use
- Custom units are available – contact us with your needs

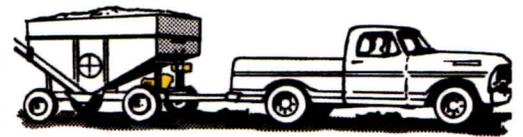

VALUE

- Frees up tractor for other uses
- Saves wear and tear on tractor
- Saves time and labor
- Built extra heavy for years of trouble-free service

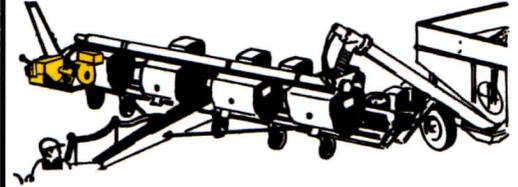

483 BI w/wheel kit

Wheel kit available for moving Auger-Mate where needed for auxiliary uses.

Wagon mounting kits available for the most common application.

Can be direct mounted on drill or planter to run fill augers.

SPECIFICATIONS

483 SERIES	588 SERIES
6.5 GPM	9.0 GPM
1900 PSI	1400 PSI
8 Hp.	8 Hp.

493 SERIES	598 SERIES
6.5 GPM	9.0 GPM
2100 PSI	1600 PSI
9 Hp.	9 Hp.

4133 SERIES	5138 SERIES
6.5 GPM	9.0 GPM
2350 PSI	1900 PSI
13 Hp.	13 Hp.

Higher performance models for larger augers and faster unloading

STANDARD EQUIPMENT

- 8 Hp. manual start Briggs & Stratton overhead valve engine
- 5 gallon fluid reservoir
- 25 micron filtration
- 3 position control valve with detent

ENGINE OPTIONS

- Electric start engines
- 13 Hp. Robin engine
- 8 Hp. Honda engine
- 9 Hp. Robin industrial engine

OTHER OPTIONS

- Valve for logsplitter use
- Valve for cylinder use
- Quick disconnect coupler kit
- Pressure gauge with test point
- Dual-bank valves
- Wheel kit (see photo above)

Custom units, other features and accessories are available, contact us with your requirements.

We are a full line hydraulic distributor and manufacturer. Feel free to contact us for your hydraulic system needs.
